

Project Design Phase

Problem – Solution Fit Template

Date	18 June 2026
Team ID	
Project Name	ShopEz (Full Stack MERN Application)
Student Name	JASTI RAGHAVENDRA (jsvpsairaghavendra@gmail.com)
Maximum Marks	2 Marks

Problem – Solution Fit Template:

Attaining a Problem-Solution Fit involves aligning specialized software capabilities with documented user behavior and verified marketplace challenges. It ensures the ShopEz architecture is specifically calibrated to mitigate common frictions in the contemporary digital retail environment.

Purpose:

- ☐ Address multifaceted digital purchasing hurdles for various user demographics.
- ☐ Enhance platform adoption by leveraging standardized MERN-based architectural flows.
- ☐ Refine the development roadmap with user-oriented technical specifications.
- ☐ Cultivate user confidence through high-velocity inventory control and protected browsing sessions.
- ☐ Modernize the e-commerce user experience for the specifically identified target market.

1. CUSTOMER SEGMENT(S) CS • High-paced corporate professionals. • University students with high tech affinity. • Heads of households buying for children. • Managers of boutique retail operations.	6. CUSTOMER CONSTRAINTS CC • Restricted windows for finalizing purchases. • Inconsistent mobile bandwidth reliability. • Intolerance for convoluted navigational paths. • Heightened sensitivity to payment data safety.	5. AVAILABLE SOLUTIONS AS • Mass-market general retail portals. • Sellers operating via social media pages. • Neighborhood physical storefronts. • Outdated web shops built on legacy PHP.
2. JOBS-TO-BE-DONE / PROBLEMS J&P • Locate specific fashion items rapidly. • Oversee shopping baskets and orders reliably. • Segment inventory by gender and sizing. • Streamline merchant-side stock refreshes.	9. PROBLEM ROOT CAUSE RC • Inefficient and heavy web frameworks. • Shopping sessions that lose data on refresh. • Overcrowded and non-intuitive menus. • Standardized protocols for data vulnerability.	7. BEHAVIOUR BE • Terminates sessions if latency is high. • Maintains several tabs for price cross-checks. • Strictly utilizes category-based navigation. • Monitors shipping progress on a daily basis.

3. TRIGGERS / 4. EMOTIONS TR/EM	10. YOUR SOLUTION SL	8. CHANNELS OF BEHAVIOUR CH
• Urgent requirement for seasonal attire. • Trigger: Fluid and rapid site performance. • Feel: Enthusiasm during promotional events. • Anxiety regarding package delivery timelines.	• ShopEz: MERN-Powered Ecosystem • High-velocity single-page reactivity. • Clean merchant dashboard for CRUD tasks. • Hardened authentication using JWT. • Live shipment status monitoring features.	• Mobile-first React web browsers. • Inbound traffic from direct links/promos. • Internal administrative network gateways. • Automated email communication for alerts.
